Work and Job Experience

January 2009 to ongoing
Project Management/Software Engineering/Technology Research, Computer Institut Bamberg, Germany

My work includes handling of outside contractors, co-ordination of in-house programmers and sales representative, research and handling of international suppliers, research into new technologies and market opportunities, and other managerial jobs.

March to August 2008

Phone Sales and Administration Work, Computer Institut Bamberg, Germany

The work included phone services for marketing campaigns as well as taking phone calls and directing them to the appropriate service. The filing of invoices and other correspondence was also part of my duties.

September 2006 and September 2007

Factory Work, Summer Job, RZB Rudolf Zimmerman Bamberg, Germany

I had to post-process different types of metal and plastic in a production line. Often the work involved finishing a product together in a team.
